Compassion International Gi j`y` Df`i`k` m`ut`K`Z`v` i I`tqe m`B`tu tj Lv AvtQ- ÓCompassion's ministry is focused on the individual child and his or her development. By working holistically with individual children to address their spiritual, economic, social and physical needs, we present every child with an opportunity to become responsible and fulfilled Christian adults.Ó

Compassion's Holistic Child Development Model begins in the earliest stages of a child's development and continues through young adulthood. This long-term model benefits children today and equips them with the skills they need to become independent Christian adults.

Compassion International Bangladesh *Zit`i Itqe mibitu etj itQ-* Compassion works with the individual child from the womb to university to address their economic, social, physical, emotional and spiritual needs. Compassion partners with the local church to implement our holistic child development programs. Compassion's ministry is uniquely child-focused. Compassion is an international Christian holistic child development ministry, committed to child advocacy and working in partnership with local churches to foster the spiritual, economical, social and physical development of the children living in extreme poverty.
